

High-Tech Commercial Pool Disinfection with Powerful Performance

The CCH® Elite feeder is a high capacity erosion (HCE) feeder that is compact and lightweight with a modular design. The feeder uses CCH® 1” calcium hypochlorite tablets that work in conjunction to produce a fresh concentrated liquid chlorine solution for clean and sanitized water. This innovative feeder system is easy to maintain and service with a flexible design that allows for easy integration for small to large commercial pools.

Switch to the CCH® Elite Feeder System, delivering clear and sparkling water time and time again!

Powerful Feeder Performance

- Provides consistent chlorine delivery
- Feeder designed to minimize maintenance requirements
- 2 in 1 dust reduction funnel for loading tablets with capacity extension
- Rotomolded components hold up to the strongest elements
- Feeder design allows for easy access to internal components
- Features high capacity erosion technology with the benefits of a venturi and booster pump

Tablet Efficiencies

- Won't overstabilize pool
- More concentrated than liquid bleach
- Dry, easy to handle formulation
- Will not cause reduction of ORP
- Highly concentrated to reduce shipping and handling costs
- Longer shelf life when compared to liquid bleach

A 3-in-1 product that chlorinates consistently, increases calcium to protect plaster and balances alkalinity to stabilize pH!
